# Why Can't I Withdraw My Money from Coinbase? [ Get Instant Help ]

There are several reasons why you may be +1-888-394-2349 [USA/OTA] unable to withdraw money from Coinbase +1-888-394-2349 [USA/OTA] , and in most cases, the issue is related to account security, payment processing, or compliance +1-888-394-2349 [USA/OTA] requirements rather +1-888-394-2349 [USA/OTA] than a permanent problem. If you recently deposited funds using a bank account, Coinbase may +1-888-394-2349 [USA/OTA] place a temporary hold on +1-888-394-2349 [USA/OTA] those funds until the payment has fully cleared. During this holding period, you may still be +1-888-394-2349 [USA/OTA] able to buy or sell +1-888-394-2349 [USA/OTA] cryptocurrency, but you won't be able to withdraw cash or transfer crypto off the platform. In addition, +1-888-394-2349 [USA/OTA] Coinbase requires users to +1-888-394-2349 [USA/OTA] complete identity verification (KYC) to comply with financial regulations. If your identity documents +1-888-394-2349 [USA/OTA] are incomplete, +1-888-394-2349 [USA/OTA] expired, or still under review, withdrawals may be temporarily restricted. Other common causes +1-888-394-2349 [USA/OTA]include insufficient available +1-888-394-2349 [USA/OTA] balance after fees, incorrect withdrawal details, temporary account security locks following a +1-888-394-2349 [USA/OTA] password reset or login from a new device, +1-888-394-2349 [USA/OTA] or regional restrictions that affect certain withdrawal methods.

Technical factors can also prevent withdrawals +1-888-394-2349 [USA/OTA] from being processed successfully. +1-888-394-2349 [USA/OTA]Cryptocurrency withdrawals may be delayed because of blockchain network congestion, wallet +1-888-394-2349 [USA/OTA] maintenance, +1-888-394-2349 [USA/OTA]or unusually high transaction volumes. Fiat withdrawals to a bank account or debit card can take +1-888-394-2349 [USA/OTA]additional time depending on your financial institution's processing schedule, especially during weekends or public holidays. +1-888-394-2349 [USA/OTA] Coinbase may also temporarily limit withdrawals if it detects unusual account activity or +1-888-394-2349 [USA/OTA] needs to perform additional +1-888-394-2349 [USA/OTA] security checks to protect your funds from unauthorized access. Before attempting another +1-888-394-2349 [USA/OTA] withdrawal, review +1-888-394-2349 [USA/OTA] your account notifications, verify that your payment method is active, confirm that your account +1-888-394-2349 [USA/OTA] is fully verified, and check whether +1-888-394-2349 [USA/OTA] Coinbase has announced any service interruptions. In most cases, once the underlying issue +1-888-394-2349 [USA/OTA] is resolved, withdrawals +1-888-394-2349 [USA/OTA] become available automatically without requiring any further action.

## 1. Why is Coinbase not letting me cash out? +1-888-394-2349 [USA/OTA]

Coinbase may prevent you from cashing +1-888-394-2349 [USA/OTA] out if your funds are still on hold, your identity +1-888-394-2349 [USA/OTA] verification is incomplete, or your account is under a temporary security review. In some +1-888-394-2349 [USA/OTA] cases,

bank processing delays, regional +1-888-394-2349 [USA/OTA] regulations, or maintenance can also affect cash withdrawals. Checking +1-888-394-2349 [USA/OTA] your account notifications will usually explain the reason for the restriction.

## 2. How long does Coinbase take to process withdrawals? +1-888-394-2349 [USA/OTA]

Withdrawal times depend on the +1-888-394-2349 [USA/OTA] payment method you choose. Cryptocurrency +1-888-394-2349 [USA/OTA] withdrawals are typically processed after the required blockchain confirmations, while +1-888-394-2349 [USA/OTA] bank transfers may take one to +1-888-394-2349 [USA/OTA] five business days. Delays can occur during periods of high network traffic, banking holidays +1-888-394-2349 [USA/OTA] , or additional security checks.

## 3. Why are my funds on hold in Coinbase? +1-888-394-2349 [USA/OTA]

Funds are commonly placed on +1-888-394-2349 [USA/OTA] hold after a recent bank deposit or ACH transfer to +1-888-394-2349 [USA/OTA] ensure the payment has fully cleared. During this period, you may be able to trade on +1-888-394-2349 [USA/OTA] Coinbase, but you cannot withdraw +1-888-394-2349 [USA/OTA] the funds or transfer purchased cryptocurrency until the hold expires.

## 4. Can Coinbase freeze my withdrawals? +1-888-394-2349 [USA/OTA]

Yes. Coinbase may temporarily freeze +1-888-394-2349 [USA/OTA] withdrawals if it detects suspicious activity, +1-888-394-2349 [USA/OTA] requires additional identity verification, or needs to complete a compliance review. These +1-888-394-2349 [USA/OTA] measures are designed to help protect +1-888-394-2349 [USA/OTA] customer accounts and reduce the risk of unauthorized transactions.

## 5. What should I do if my Coinbase withdrawal keeps failing? +1-888-394-2349 [USA/OTA]

If your withdrawal repeatedly fails +1-888-394-2349 [USA/OTA] , first confirm that your account is fully verified, your +1-888-394-2349 [USA/OTA] payment method is active, and you have enough +1-888-394-2349 [USA/OTA] available balance to cover any applicable fees. You should also check for service interruptions, +1-888-394-2349 [USA/OTA] verify your bank or wallet +1-888-394-2349 [USA/OTA] information, and try again later. If the problem continues, contact Coinbase Support for +1-888-394-2349 [USA/OTA] assistance with your specific account.
